

RANGER REPORT

July 2016

Hello!

As summer settles in and the temperature rise, the hot fishing hours have changed to the early morning hours and the late evening hours. The bass and bluegill are mostly off their beds and heading for deeper waters. The hot baits for the catfish have been stink baits and shrimp with chicken liver. Bass have been hitting rattle traps in the early morning. As always see our well stocked bait store for all your fishing needs! Many soft baits and tackle are on sale. On a side note both the rangers and maintenance have worked hard cutting and trimming around the lake cleaning it up and are asking for your help in continuing to keep SBEA Lake a safe, clean and peaceful place for all members.

Please treat with respect the wildlife that shares your lake. Keeping all hooks and fishing line picked up because the hooks get caught up in the bird's beaks and the fishing line end up wrapped around the birds legs causing great harm so please pick up all hooks and fishing lines.

June Creel Count
