

RANGER REPORT

October, 2015

Hello everyone!

It's time for another ranger report, fall is showing up at the lake now, the water temps are starting to cool and this has triggered the fish to put on the feed bag! The catfish are hitting through the morning now and shrimp is the hot bait. Some really nice bass are being caught using spinner baits and top water baits in the morning. Crappie are hitting dark colored jigs and minnows. The bluegill are hitting bits of shrimp, crawlers and grasshoppers. As always stop in at our bait shop for all your fishing needs. Rebecca and Pat will make sure you are ready to hit the lake!
