

Ranger Report

April 13 - April 19

Hello everyone!

Here's your latest SBEA fishing report! We are still catching large trout on blue and silver rooster tail spinner baits and the crappie are hitting the same thing! Large catfish are now moving to hit stink baits and are also hitting shrimp and chicken liver. Bass are hitting spinner baits and brush hogs along the banks. Please stop in the bait shop and see all our recent pictures of this spring's creel catch!
