

RANGER REPORT
February 16 – February 22, 2015

Hello! This is Ranger Eric with your weekly SBEA fishing report! The trout that have been caught have been some nice sized ones! I still am having some success with a small Panther Martin spinner with a black blade with gold spots.

They seem to like that in this clear water fished along the drop-offs. Pinkie minnows are still catching crappies. As you move around the lake you will notice this winter the rangers and maintenance have put forth a ton of effort to take advantage of the low water conditions and clean up the lake. The lake has not looked better in a long time! Please help us to keep your lake looking good by using any of the 54 trash cans around the lake. We are fast approaching our last trout stocking of the season and this will be a larger stocking. With spring around the corner and weather warming up the trout will switch and hit larger baits. I would use pinkie minnows with slip bobbers. Good luck everyone and please take pics of your catch!
