

Ranger Report

23 Mar -29 Mar

The weather is starting to improve and the lake is really looking good. Our maintenance department has been busy over the winter with lots of different projects to make the lake look much nicer. A ton of improvements have been done around the lake for our members to enjoy. Spring hours go into effect the 2nd of April. The lake will open at 7am, and we will stay open till 8pm.

The creel count on the trout is down, Yellow power bait is still bringing in some trout. The count on the channel cats is going up. The best fishing during the week was for crappie. The bait of choice the catch crappie or trout is the pinkies (minnows).

This Saturday we've got the Kids Fishing Club. I'll be teaching class on catching crappie. Bring the family out and get the inside scoop on what to use to catch these wonderful tasting fish.

I'm also excited about our stocking of the lake with channel cats. The first stocking will be the 17th of April. Then every two weeks we will stock more channel cats. The SBEA will be the place to catch fish this summer.
