

Ranger Report

March 23 – March 29

Hello everyone! Here is your weekly roundup of fishing happenings at the SBEA lake. Cats are starting to move with the water warming up and some nice 4 and 5 pounders have been caught along with lots of 2 pound eaters. We will have our second stocking of cats soon so start making your secret stink baits! Bass, crappie and bluegill have all started to come on strong using spinner baits. With the water warming up, trout have slowed down but a few large ones remain. So get out and enjoy the fishing!
