

## **Ranger Report**

March 30 – April 5

Hello everyone! Well last week was a good one for fishing! We are still catching some nice trout in the morning and the catfish are settling into a morning and evening bite. We also now have crappie and bass moving into shallower water and hitting small spinner baits. Minnows are working well to catch all fish and the catfish like crawlers. Good luck fishing everyone and stop by the bait shop with your catch so Pat can get pics!
