

RANGER REPORT

May 11 – May 17, 2015

Hello! This is Ranger Eric with your SBEA fishing report! We have just had our Lunker Catfish Tournament and even the rains could not stop the fun! We had lots of real nice catfish caught with many of them in the 4-5lb range and even a 10 and 13lb catfish caught! Once again the weather is up and down but we see the fish setting up in a summer pattern now with morning and evening being the best bite and a smaller bite between 10 and noon. The crappie spring bite was good as was the bass. Our trout season was a success and we still have a few trout being caught. Good luck everyone and please take pics of your catch! We want to see your success!
