

Ranger Report

November 26 – December 4, 2015

Hello everyone! We hope your thanksgiving was a great one and you are now ready to catch some trout! The trout have been hitting on small gold kastmaster spoons with a slower retrieve. Also peach, orange and green dough baits are hot now too. Our bait shop is well stocked with all these items. Last weekend we had some 4 and 6 pound trout caught along with many 3 pound eaters! We still have catfish, bass, crappie and bluegill being caught some being rather large. We ask that all fishermen respect each other and not cast over each other's lines. We are also steadily stocking trout so there are good amounts in the lake; however we are not publishing stocking dates as they depend on fish availability from the fisheries.
