

Ranger Report

September 7 – 13, 2014

It looks like the cooler weather has arrived at the SBEA lake. The ducks have started to move in.

The fishing for the catfish is slowing down, but the crappie are enjoying the nicer, cooler days.

There are a couple of things coming up I want to let you know about. First, we're going to have our 1st annual SBEA shotgun trap shoot on October 26th. We're headed out the Shady Clays Range for a day of fun, food and some great prizes.

Next, the SBEA is offering a chance to try your skills at paintball. The 11th of October we are going out to Graffiti Paintball and practice our war skills.

Don't forget that we are offering a free Hunter Education class on Sept. 26, 27, & 28.

Creel: Catfish – 93, Bass – 24, Crappie – 11, Blue Gill – 48.
