

RANGER REPORT

August 2017

Hello everyone!

Hello! Wow the rains have really got the cats and bass biting! Stink baits and chicken livers are pulling in cats while the bass are hitting chatter baits and 12 inch purple worms. Bluegill is hitting on night crawlers and spinner baits and some crappie are being caught on minnows. Night is still the best cat bite but on cloudy days cats are biting all day. Don't forget our clay shoot this Saturday and the weekend after is our all night cat tournament! Remember the Friday before the tournament when we stock the lunker cats, the lake will be closed to fishing and only open to tournament members on Saturday and Sunday morning. On another note we have a few instances of members wanting to use 3 poles. This is not allowed. You can only use 2 poles on the lake.

Weekly Creel: Bass-111, Crappie-89, Bluegill-201, Catfish-398 Grand total-799

Take care and good fishing!
Ranger Eric
