

Ranger Report

March 16 – March 22

Hello everyone! This is a great time of year! We now are stocking catfish and the first stocking had some nice size catfish! People are still catching nice trout on Berkeley trout baits and the catfish are also hitting that too! We do ask since we now have lots more people fishing, to please come out and enjoy the lake but please use common courtesy. Please don't fish on top of each other we have a large lake and the catfish have spread out from the stocking site. So please spread out and explore the lake!
