

# Ranger Report

March 2017

Hello! Trout are still being caught on dough baits and crawlers. With the warm weather catfish are moving and hitting crawlers and stink baits. Reminder for everyone, please release all blue cats till 15 June. We are close to start stocking our catfish for summer and fall fishing. Crappies are biting early this spring and micro jigs in the black and pink colors are working best.

Take care and good fishing!  
Ranger Eric
