

Ranger Report

January 3 – January 9, 2015

Hello! This is chief ranger Eric with the weekly lake report. The rainbow trout are still hitting pretty steadily with some larger trout now being caught. Members are having pretty good luck with catching Bluegill this week. The Lake still has ice but with warmer temps the ice will melt and fish will start to move around more. Our fully stocked bait and tackle shop has all your trout baits in stock. Stop in and see Pat or Rebecca and they will get you outfitted.

Take care and good fishing!

Ranger Eric

Weekly Creel: Catfish – 1, Rainbow Trout - 37
