

RANGER REPORT

April 2019

Hello everyone!

Welcome to the catfish season! We have stocked channel cats and the water has warmed up nicely. Both our newly stocked fish and ones waking from their winter slumber are now awake and hungry. Pat and Jeff at the bait shop have stocked up on all the catfish baits and are ready for the season. Bass and bluegill will be spawning soon and we ask that you please catch and release those fish until late June, so they can complete their spawning for more future fish. There have been a lot more kids on the lake which is great, please drive the speed limit on the lake which is 10 mph. The soccer nets are up and the boats will be in the water for renting soon! We also have two new flat bottom boats for rent!

Weekly Creel: Bass-16, Trout 69, Catfish-391 Grand total-476

Take care and good fishing!
Ranger Eric
