

RANGER REPORT

January 2019

Hello everyone!

Come on out and trout fish! We just stocked the lake again with some nice size fish! A few pointers, when the sun is shining and there is ice on the lake, fish near or under the docks or near cover. Trout seek shade. If it's breezy and overcast, fish the lake hard, trout will be on the move. So far this season the hot bait is peach dough bait and red colored eggs. Last weekend gold kastmaster spoons and night crawlers caught a few too. Cats are also hitting the trout dough baits and a few blue cat have been caught on live minnows as have a few crappie. Pat has Valentine's Day items on sale now and with catfish season just around the corner, get with him if you need special baits or tackle ordered. This upcoming weekend we are supposed to have spring temps! Come on out and fish, bring the kids to play on the playground, fire up one of our many grills around the lake for a cookout. Bring a football to throw around or a ball and bat for the batting cage. Hope to see you out here!

Weekly Creel: Trout- 200, Crappie-4, Catfish-16 Grand total-220

Take care and good fishing!
Ranger Eric
