

RANGER REPORT

August 2019

Hello everyone!

Well late summer is here so you know what that means, it's all about the night bite and sunrise bite! We still have high waters and that helps with the bite too. Good baits to use now is crawlers, cut baits, shrimp and stink baits. Please continue to police your fishing areas as you leave and use the trash cans at every dock. The speed limit is 10 mph on the lake and there is only one way to enter and exit the lake. More information signs have been posted. Also, please absolutely no pets allowed on the lake. Remember, if you accept a fish from another member that fish counts against your creel.

Come on out and drop a line!

July Creel Report: Catfish – 170, Bass – 10, Bluegill – 60, Crappie – 5, Total – 245
