

## RANGER REPORT

October 2019

Hello everyone!

Happy fall everyone! The bigger cats are moving with the rains and cooler temps now. We have had quite a few 8-10 pound channel cats caught along with many 4-5 pounders. A few real large blue cats were caught also! Stink baits are still producing but the bigger cut baits are catching the larger fish. Crank baits and large grass hoppers are what the bass are hitting on. Stop in and check out the bait shop. Pat, Jeff, and Mark, have gotten more fishing gear in, everything from new reels, rods and baits. Trout gear is showing up too and we will have trout in the water sometime in November. We will be pulling the boats out sometime this month. Weather permitting, we will leave them in as long as possible. Please remember our speed limit on the lake is only 10 mph.

September Creel Report: Catfish – 241, Bass – 21, Crappie – 9, Bluegill – 55, Carp – 6, Total – 332
