

Ranger Report

February

Hello all!

With the cloudy days the trout are starting to bite a little better! The baits to use are the Berkeley dough baits, trout eggs and pink minnows. Fish into the wind close to shore, under the docks and in shadows. Cats on the warmer days still like shrimp or chicken livers with garlic added. This weekend is supposed to be really warm and sunny, come on out and enjoy the lake before the big game! Go Chiefs!

Creel Count: Trout-201, Catfish- 14, Total-215
