

RANGER REPORT

January

Hello everyone!

Have you all recovered from the holidays? Hope so! We have hungry trout in the lake, wishing someone would feed them! Good baits to use are kastmasters in silver, peach or green dough baits, and minnows. Crawlers are producing in the evening too. A few cats are hitting the trout baits as are a few carp. A reminder, all white perch when caught must not be put back in the lake. Also adhere to the no parking signs, and let's all maintain our safe spacing while fishing.

For those who want to get out and enjoy our lake, but may not want to fish, our lake is 1.1-mile circumference. Come on out for a winter walk, if you like watching wildlife, we have a ton of birds, ducks that have migrated down for winter. We have fox, squirrels, muskrats, opossum and an armadillo you may see also.

Pat and Jeff in the bait shop have all your fishing and snacks needs covered, and if you didn't get that special gift at Christmas, check out their sales table. Lots of great merchandise still on sale!

Hope to see you soon!

Creel Count: Catfish 10, Carp 6, Trout 277, Total 293
