

RANGER REPORT

August

Hello everyone!

The dog hot days of summer are here. It makes fishing a little more complicated, but fish can still be caught! Fish the early morning or late evening hours. Cast to any shade cover and don't forget to fish right under your dock. Cut baits were the hot baits for catfish. Reminders for August. We have weekend camping till Labor Day weekend. After Labor Day weekend camping ends. Friday August 23rd, we stock the lake for the lunger tournament. The lake will be closed to fishing that Friday. Also, no camping that Friday night. Saturday 8am till Sunday 8 am we will have our lunger tournament. Camping for tournament members only will be available Saturday night. Sign up and come on out!

Let's review some lake rules. All bass are catch and release. **The speed limit on the lake is 10 mph. Absolutely no glass bottles are allowed on the docks. Absolutely no members are allowed to drive on the south side of the lake.** Also, aside from Friday and Saturday night, all members MUST be off the docks and driving off the property 15 minutes prior to closing!! This is a hard and fast rule that enables the only ranger on the shift to secure all the buildings, ensure that no one is hiding in the porta potties, put away the ranger vehicle, clock out and lock the gates.

Any white perch caught must be killed and not returned to the lake. They are an invasive species. All bass are still only catch and release for 2024. Absolutely no glass bottles allowed on the premises. All camp sites are first come first serve. Fire pits can be rented from the rangers. The fire pits in the campgrounds are the only place where fires are allowed. This is at the discretion of the ranger per wind speeds and if the state is on a burn ban. This rule does not apply to using the grills to cook on. Let's also police up cigarette butts and trash to keep our beautiful lake clean for all members. Also let's make sure to that all fishing line and hooks get tossed in the trash cans and not on the ground to help keep the wildlife safe.

NO PETS ALLOWED

July Creel Count: Bass-21, Bluegill-39, Catfish-322

Total -392

All Bass Safely returned to the lake.
